## Exchange Learning for Youth

The Tools4Inclusion reached an incredible milestone of the project! During the years 2024 and 2025, the partners carried out three exchange learning activities. These exchange learning were moments of inspiring connections between youth and full of insights for their lives.

*«...I met a lot of people and I also realized a lot of unfair treatment. This experience broadened my horizons...»*

# What is an Exchange Learning?

Exchange Learning are international learning opportunities for youth, teachers, parents, and professionals.

It promotes learning through activities in national and international connections, linked to the core values of diversity and inclusion. It will provide experience of understanding each other's perspectives in a safe environment and of listening to real needs and ensuring an appropriate response.

It combines:

Workshops on own experience to try out tools and materials produced;

National discussions;

Field experience visits;

Cross-cultural awareness.

# BAGÁzs, HU

The very first exchange learning was organized by BAGÁzs in June 2024.

The group was very diverse, we included teachers, students (from majority and immigrant background), youth (from majority and roma background), social workers, parents and NGO professionals.

The goal of this exchange learning event was to deepen the participant's knowledge and experience, form their attitude regarding the complex approach of social inclusion. All the workshops were based on cooperative methods where the participant's diverse opinion and experience can create an exciting learning environment.

# FGHD, MT

FGHD organized the second exchange learning event in Malta in October 2024. The program included theoretical, practical and self experience based workshops that helped the participants to understand the complex approach of inclusion, especially in the context of an international setting which is present in Malta.

# Aproximar, PT

Aproximar was responsible for organising the third exchange learning in Portugal, in October 2025.

The final programme consisted of conceptual sessions focused on communication and dissemination and practical activities in which the groups of youth had to plan and organise their T4I campaign.

Some results from the youth are already available on social media, check them out!
